Don Hauser had a serious house fire this past Sunday. The house is unlivable. He'll be staying at Bearidise until further notice. He'll be at the club this weekend and he would appreciate seeing you. He is OK; he inhaled some smoke and went to the ER for oxygen treatment and was released.

The fire was caused by a kerosene lamp

The VCR in the bedroom adjacent to the main fire

The 2nd floor will have to be gutted

A once beautiful antique marble top dresser
